Note:—IN the Return here submitted, the Statement of Irish Commerce for the Triennial period terminating on 5th January 1830, is necessarily confined to the Trade carried on with Foreign Parts. The Trade with Great Britain having, since the year 1825, been governed by Coasting Regulations, which deprive this Department of the means of keeping any record of the interchange of goods between the two Countries, except in so far as the article of Corn is concerned.

With the view, however, of bringing down the comparison upon the aggregate Imports and Exports to the latest possible period, it has been thought advisable to introduce the Averages of an additional term of three years, ending 5th January 1826, the date at which the record of the Cross Channel Trade was finally discontinued.

Note.—THE view which this Statement affords of the average Consumption of the Triennial period, terminating on 5th January 1830, is to a certain extent defective, inasmuch as the Coasting Regulations by which the Cross-Channel Trade has been governed since the year 1825, prevent the keeping of any record of goods imported Duty free from Great Britain, either in the case of British Productions or of Foreign Merchandize, upon which Duty has already been paid in a British Port; of the articles included in the present Account, those in respect to which the comparison is most affected by this circumstance, are, Refined Sugar, Flax Seed, Cotton Wool, Cotton Yarn, Woollen Yarn, Raw and Thrown Silk, and Unwrought Iron.

The consumption of Tea in Ireland cannot be ascertained for any annual period, later than the year ended 5th January 1828, a regulation having been established in the course of the following year, which requires that Tea, destined for consumption in Ireland, shall be charged with Duty in Great Britain, previously to its delivery from the Warehouses.

To compensate as far as possible for the defect in the Averages of the period ended 5th January 1830, it has been thought proper to introduce those of the period ended 5th January 1826, the date at which the Duty-free Importations from Great Britain ceased to be recorded.
